

CALL FOR PAPERS

The Saturday 16th of February in the afternoon it will be 12 workshops in parallel, with three speakers each, one discussion coordinator and a Chair.

All lectures will be read in the language of the presenter. The version in the other language will be projected on screen or distributed. During the discussion, if necessary, we will benefit from the help of a translator.

The duration of each workshop will be 90 minutes. Each speaker will have 20 minutes, and 30 minutes of discussion with the floor.

Conferences will be held in small rooms (with an audience of 15 to 25 people).

Rules for presenting an abstract:

Who wants to participate as presenter in a workshop must send an abstract **before December, 1, 2018** to psicoanaliscoppiafamiglia.pcf@gmail.com, to the attention of Marcello Valeri.

The mail must contain Nome, Surname, e-mail address and telephone number.

The abstract will not have to exceed the 150 words (850 characters, spaces excluded), Word, Times New Roman, 12, single space, written in English or Italian or French. It will be titled.

The abstract will be assessed by a Scientific Commission and you will receive an answer within the 6th of January 2019.

Arguments:

The argument can be one of the suggested (see below) but we appreciate also others that are related to your particular research in this field.

The arguments suggested:

- Infantile psychosis and family setting
- The setting with the parental couple
- The setting with conjugal couple: the sex of the therapist has to do with transference and countertransference?
- The setting with adolescents and their families
- The setting with polysymptomatic families
- Variation on individual and couple settings
- The multifamiliar setting
- Psychoanalytic setting with couple and families in Institution
- Setting with couple with a premature baby
- Setting with the family of an anorexic patient
- Families with psychosomatic disorders
- Setting with couples in separation
